

# Test Driver – Global Assignment (m/f)

## What to Expect:

- Work on various projects, from development through to series production readiness
- Conduct test drives with prototype or development vehicles on designated routes in public road traffic or on test tracks
- Carry out test drives in the field of semi- and highly autonomous driving (ADAS)
- Prepare driving reports and test documentation
- Document findings from testing in the customer's system

## What You Bring:

- Completed training as an automotive mechanic, mechatronics technician, construction machinery operator, or other technical/vocational training
- Category B driving license, extensive driving experience, and a strong affinity for vehicles
- Category BE, C1, and C1E driving licenses are an advantage
- Independent working style, high reliability, sense of responsibility and duty
- Good computer skills
- Willingness to travel worldwide

# Project Manager Automotive (M/F)

## What to Expect:

- Responsibility for leading and coordinating challenging development projects in the automotive sector
- Acting as the technical point of contact for our customers regarding project inquiries and throughout the development phases
- Developing and evaluating innovative solutions with regard to technical and economic feasibility
- Leading, motivating, and coordinating interdisciplinary project teams
- Creating, maintaining, and aligning project plans as well as preparing meaningful presentations for customers and internal decision-makers
- Actively managing and monitoring all activities in the product development process
- Ensuring timely achievement of project milestones while adhering to quality standards

## Your Profile:

- Completed degree in a technical field, e.g., mechanical engineering, electrical engineering, mechatronics, or industrial engineering
- Several years of experience in project management and product development, ideally in the automotive or supplier industry
- Strong technical understanding and analytical thinking skills
- Proficient in MS Office and MS Project
- Excellent written and spoken German and English skills
- Structured, independent, and goal-oriented working style
- High customer orientation, strong service mentality, and ability to work in a team
